

# Improving Metal Cutting Productivity and Profitability

Productivity improvements have the greatest impact and ROI on your manufacturing process. That's why at Machinery Tooling & Supply, we continuously strive to provide innovative products and services that support and improve the profitability of our manufacturing customers. We believe providing documented productivity cost analysis is critical -- in meeting your ISO and Six Sigma requirements, as well as helping you to remain competitive in today's global manufacturing industry. With offices in Schaumburg, Illinois, and Brookfield and Little Chute, Wisconsin, we offer a full line of cutting tools, MRO, health & safety and industrial supplies available for quick delivery to your facility.

Services include:

- Integrated Tooling Systems Program -- a proven customized inventory management program that provides 100% accountability and procurement process that reduce costs on average 25%
- Productivity and Tooling Rationalization Programs
- Safety Supply Program
- Fluid and Filtration Programs
- Metal Cutting Bandsaw Blades - Authorized Welding Center
- Gauge Calibration Services
- Metal Cutting Training – On & Off Site
